After studying the Arizona map, I find that most of the road from Oils Head to Ajo is in Maricopa County. Would you therefore look at the Maricopa County Probate Index, and in the Voter Registration covering that area to see if there is any person with the name of Kenneth M. Ryan. That would be most helpful.

In reply to your letter of December 1, 1967, we have checked our civil index from 1948 to date, the probate index from 1954 to date, and the criminal index from 1954 to date.

We are unable to find the above name in any of our records.

I have letters from the Clerk and the Recorder of Pima County that no Kenneth W. Lynn is in their voting, probate, civil or criminal indices from before 1957 to date.

If you have not already looked up the matter in Maricopa County, would you ask those officials to do so or should I write? What is simplest for you?

I am interested in learning if there was a telephone listing in the general area running south from Gila Bend to Ajo, Arizona, under the name of Kenneth M. Lynn during the years 1957 or thereafter. Was there a telephone directory published for this area, or was this area included in another directory? Part of it is in Maricopa County and part of it is in Pima County. Your assistance will be very much appreciated.

My inquiry was whether there was any such listing from 1957 to date instead of 1967 as your letter indicated. Re: Garland vs. Lynn

Gentlemen:

It has come to our attention that in the Ford testimony, Kenneth M. Lynn was alleged to be the person who during the 1957-58 period was the source of the many 1853 \$20 \$2000 gold pieces. He was stated to have resided on a ranch between Gila Bend and Ajo, Arizona. Gila Bend is in Maricopa County and Ajo is in Pima County, these counties being contiguous. The two named towns are about fifty miles apart and are connected by road.

The permanent registration of voters for both Maricopa County and Pima County shows no registration of any Kenneth M. Lynn from 1957 to date. The civil index and probate index of both Maricopa County and Pima County were checked from prior to 1957 to date for Kenneth M. Lynn and no such name was found. The separate telephone directories which were published for the Ajo-Gila Bend area from 1957 to date contain no listing of Kenneth M. Lynn, Kenneth Lynn or K. Lynn. (See attached copy of letter; other letters will be furnished if desired).

It therefore appears that the name of Kenneth M. Lynn does not appear in the records where it would be expected to be found.

It is of interest that Walter Freen states on page 9 of his detailed document that he knows the name of the \$2000 source but discloses no facts whatever to the arbitrators with respect to it.

It is particularly disturbing that of the three persons partially identified by John J. Ford, Jr., in his

January 25, 1968

TO WHOM IT MAY CONCERN:

My name is Lyndon Richard Cool. I am 52 years old and live with my wife at 208 North Scott Avenue, Gila Bend, Arizona; telephone number: 602 683 2255.

As a boy I came to the area between Gila Bend and Ajo, Arizona, and for about five years lived and did ranch and road work there. About 1935 I moved to Gila Bend and I have lived in that town since that time. My wife and I raised our children in Gila Bend and they have now grown up and moved away.

I have spent much of my life in the open country in the area between Gila Bend and Ajo. My occupation is and has been that of a roofer and plumber plus being a licensed guide for prospectors, hunters, archaeologists, adventurers, photographers, people studying Indian life or looking for Indian artifacts. I often take Boy Scouts out on expeditions in the area. I set traps to catch mountain lions in the area and collect the bounty.

There is a railroad running between Gila Bend and Ajo and also a vehicle road. The distance is 42 miles. The area consists of rough and arid mountains and is quite desolate. There are a few water wells between these two cities. The wild life includes Big Horn sheep, mountain lions, wild boars and antelopes. Ajo is a copper mining town, referred to as a captive town because Phelps Dodge is the only industry.

During and continuously since World War II the United States Air Force has used a substantial amount of land between and on both sides of the area between Gila Bend and Ajo for aerial bombing and aerial rocket experimentation and testing. There is a small permanent group of Air Force personnel connected with that work who have for more than ten years lived in a compound about five miles south of Gila Bend next to an air strip. It has been and is necessary to have the permission of the Air Force to enter the large

areas it controls between Gila Bend and Ajo because of its military uses and whenever I asked I was able to obtain permission to enter. All ranches between Gila Bend and Ajo have been abandoned for longer than twelve years, the last inhabited ranch being that of Tom Childs, who had married a Pappago squaw, and raised twelve children. The Childs' ranch was approximately ten miles north of Ajo and at his death in 1951 the hut was forthwith burned in accordance with Indian custom and his family moved to Ajo. He was a good friend of mine.

In January, 1968 I went to Ajo to visit William S. Lynn who lives with his wife at 935 N. Connolly Avenue, Ajo, Arizona, (Telephone: 602 387 7328). He told me he had lived in Ajo ever since 1927 and is about to retire from his copper mining work at Phelps Dodge. He told me that he had two sons, James and Alfred, and that James also lived in Ajo. He told me that he had never heard of anyone living or being in the Ajo-Gila Bend area having the name Kenneth M. Lynn or Kenneth Lynn.

I have made many trips through all parts of the area between Gila Bend and Ajo over a period of thirty years and know it well. I have never heard of anyone in the area by the name of Kenneth M. Lynn or Kenneth Lynn. I have inquired of other old residents in the area and they do not remember any such person in the area.

Dear Sir:

In reply to your letter of January 8, 1968:

1. The earliest Ajo or Gila Bend directory of which we have any record was published in 1940. Directories for Ajo and Gila Bend were published as separate directories until the 1957 issue when they were combined into one. A combined Ajo-Gila Bend directory has been published since.

2. There is no listing for Kenneth M. Lynn, Kenneth Lynn, or K. M. Lynn in any Ajo or Gila Bend separate or combined directory from 1940 to the present.

3. There is a listing for W. S. Lynn that appeared first in the 1941 Ajo directory and has continued, with various addresses and telephone numbers until the present. This customer's current listing in the Ajo section of the combined Ajo-Gila Bend directory is:

Lynn W.S.  
Housing Project                      387-7328

4. There was a listing for James Lynn that appeared in the combined Ajo-Gila Bend directory of 1957. This listing appeared in one issue only and has not reappeared since. The listing in the Ajo section of that directory was:

Lynn James

Mr. Lyndon Richard Cool was extremely helpful and even went to Ajo to talk to William G. Lyon. The wonderful piece of humor in all of this is that Lynn Cool told me that he uses the name "Lynn" because of his aversion to the first name of the President of the United States.

There may be a decision in the pending arbitration at some time during the month and I will keep you advised of it. In all probability it will be just the beginning of a long legal squabble.
